	A How VRUs Make NGLs More Profitable
	<b>O&amp;G</b> production managers have to skillfully balance these elements. New government regulations increasingly pressure their operations to capture wet, acidic and sour gas streams with vapor recovery systems. Fluctuating oil prices pressure bottom line profitability. Compliance and profitability require skillful planning by production managers. Many production managers have contacted Ro-Flo Compressors, LLC, for help, and have used our rotary vane compressors to help them comply and actually improve profitability. In some cases, VRU ROI as short as 3 months has been achieved. Typical ROI's are about 1 year.
